

When it comes to maintaining an independent lifestyle — seniors count on HelpLink

HelpLink is an easy-to-use medical alert device perfect for seniors who want to stay safe in their homes. HelpLink provides families security and gives them peace of mind knowing that help is just a push of a button away. Just push the button on the pendant, wristband, belt clip, or console and the user is instantly connected to a Care Specialist -- 24 hours a day, every day. The Care Specialist quickly engages in communication with the user, assesses the situation and takes the appropriate action based on your pre-determined profile settings. The Care Specialist will contact the closest emergency responders, loved one, neighbor or caregiver, whichever is needed for the immediate situation. The Care Specialist will also provide emergency responders with current medical conditions and known medication allergies allowing for a faster and more efficient response.
